

FIG 1. Legend: Repeated-measures ANOVA. *, different from all other groups, Dunnett's test; #, different from DHA-Alb 1.25 and from Alb 0.63 groups, Bonferroni test ($p < 0.05$)

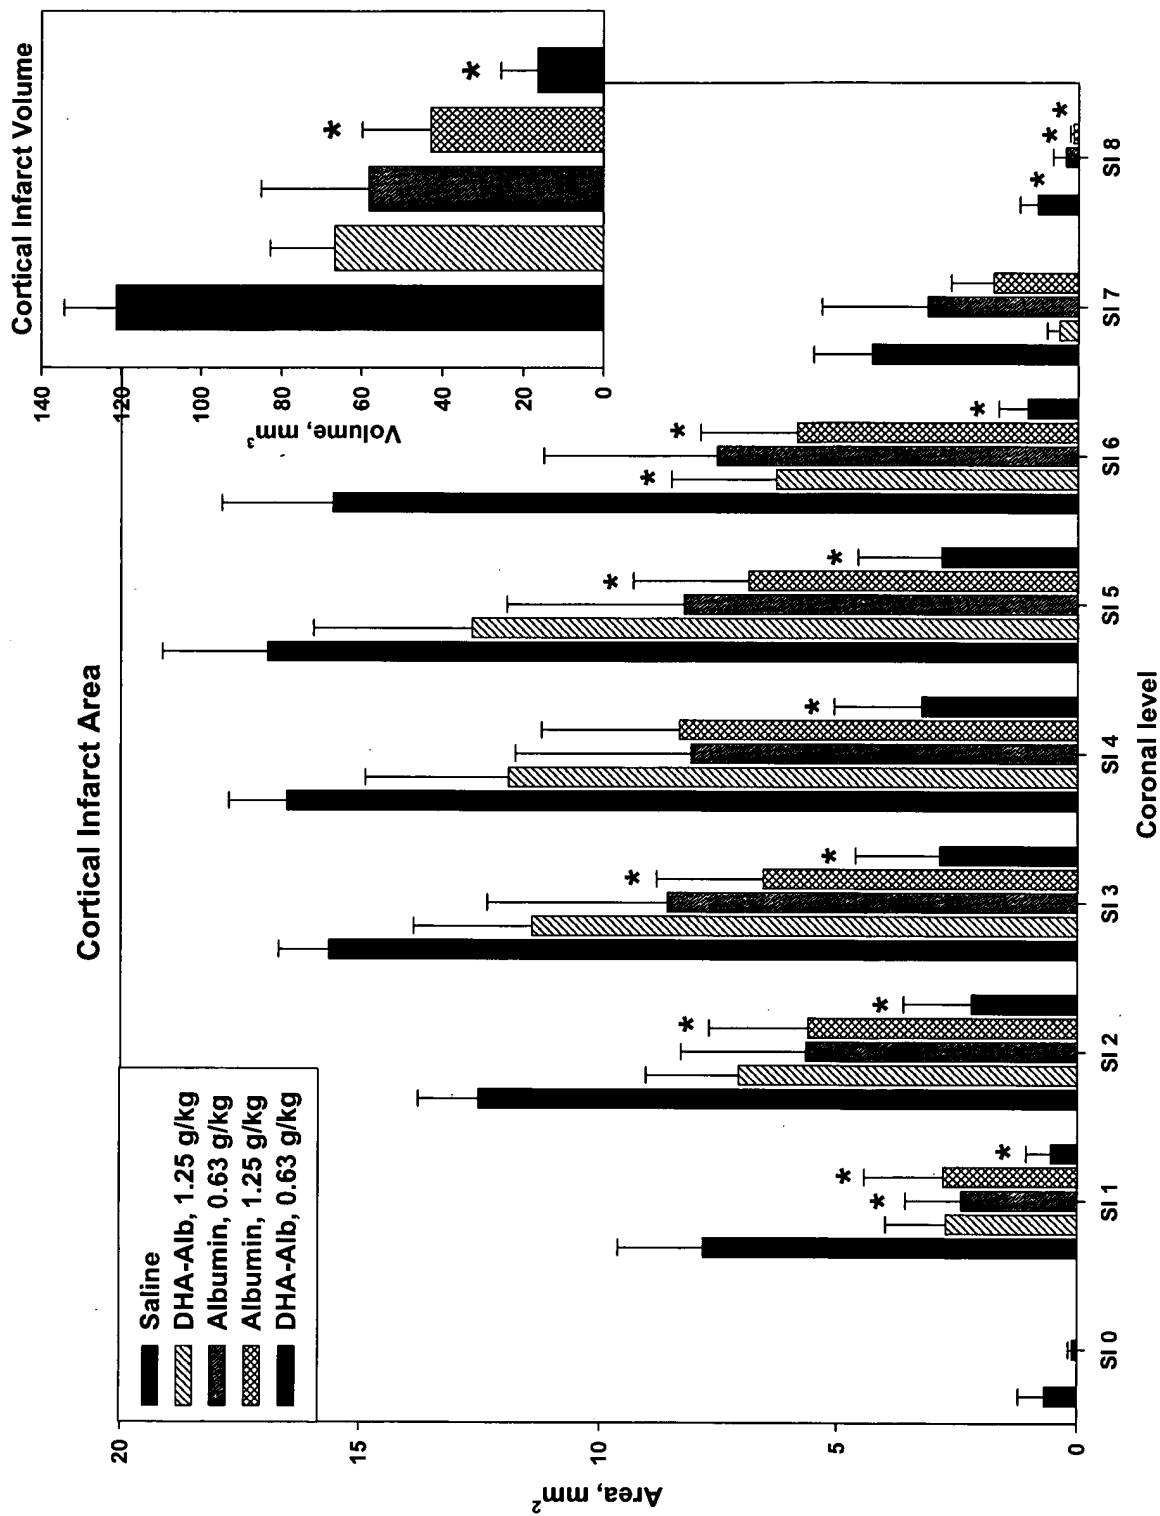

FIG. 2. Legend: Repeated-measures ANOVA. *, different from saline group, Dunnett's test ($p < 0.05$).

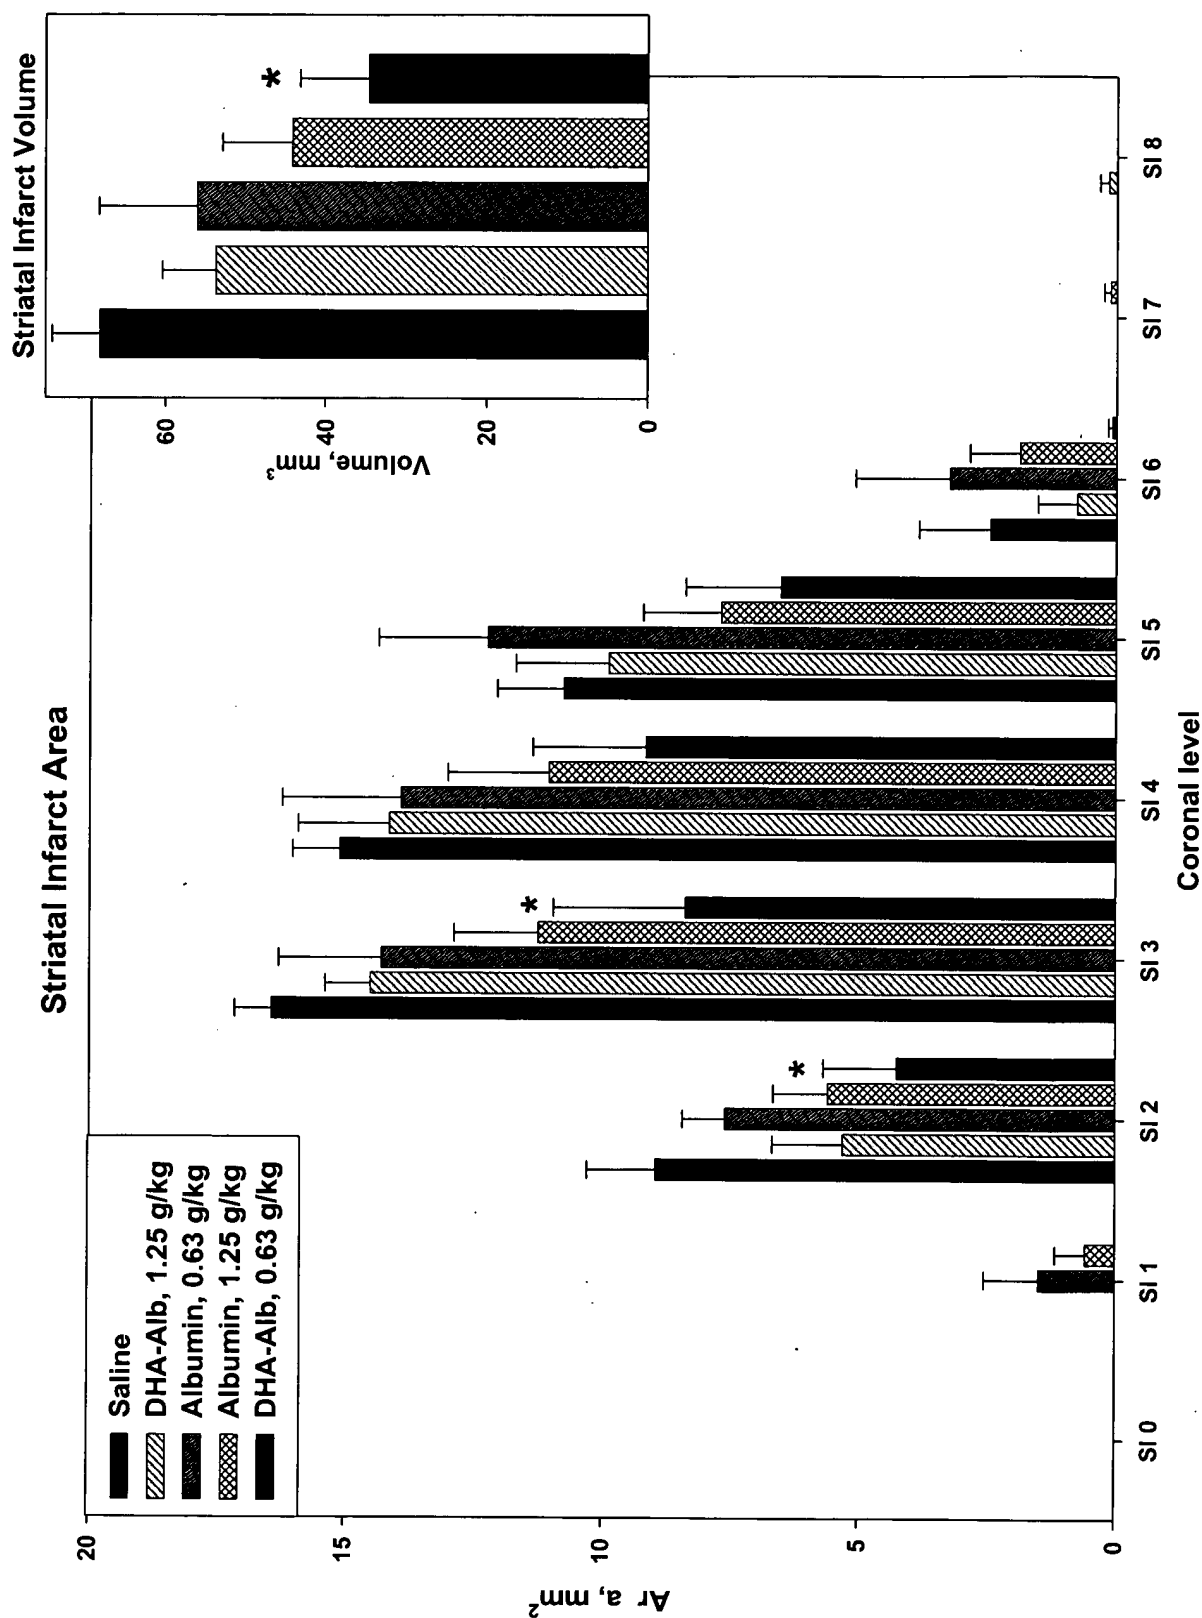

FIG. 3. Legend: Repeated-measures ANOVA. *, different from saline group, Dunnett's test ($p < 0.05$).

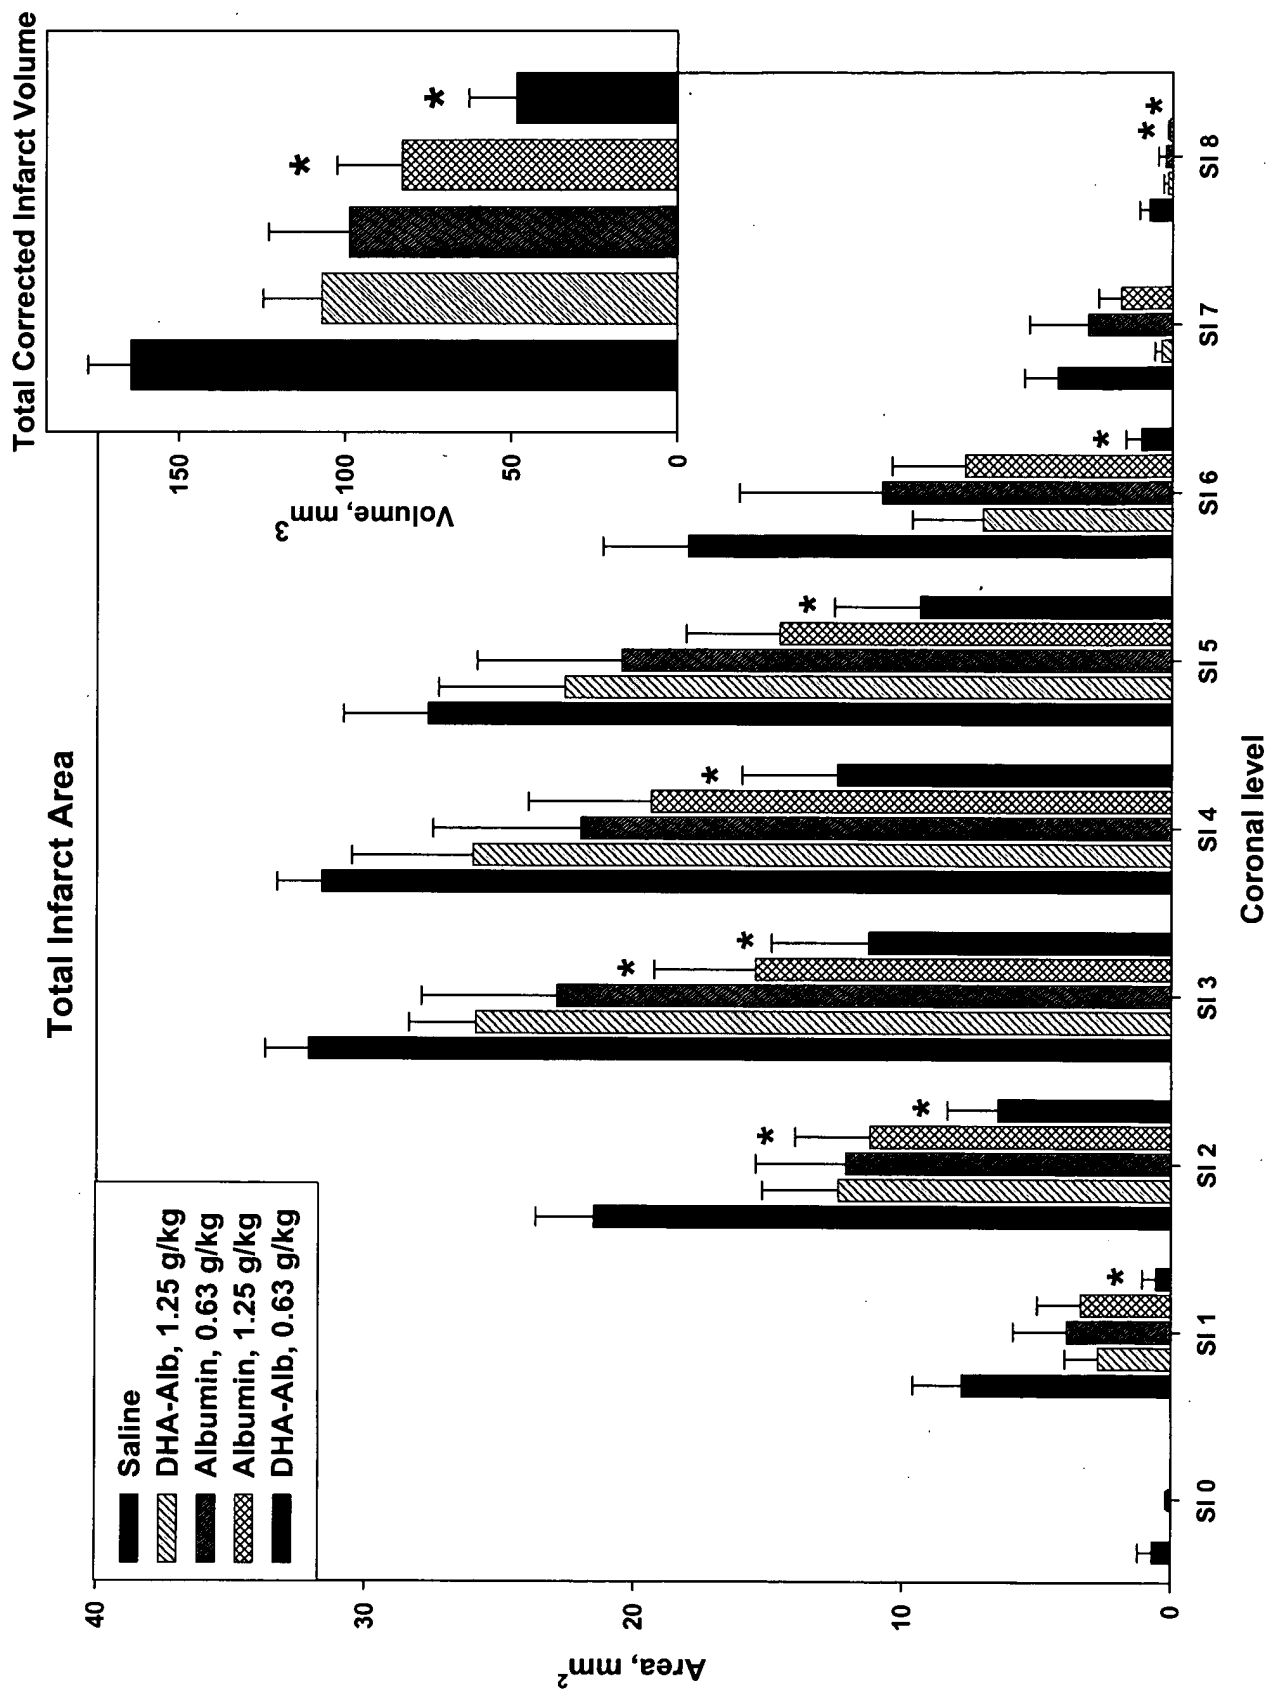

FIG. 4. Legend: Repeated-measures ANOVA. *, different from saline group, Dunnett's test ($p < 0.05$).

DHA-Albumin vs. Albumin Neuroprotection

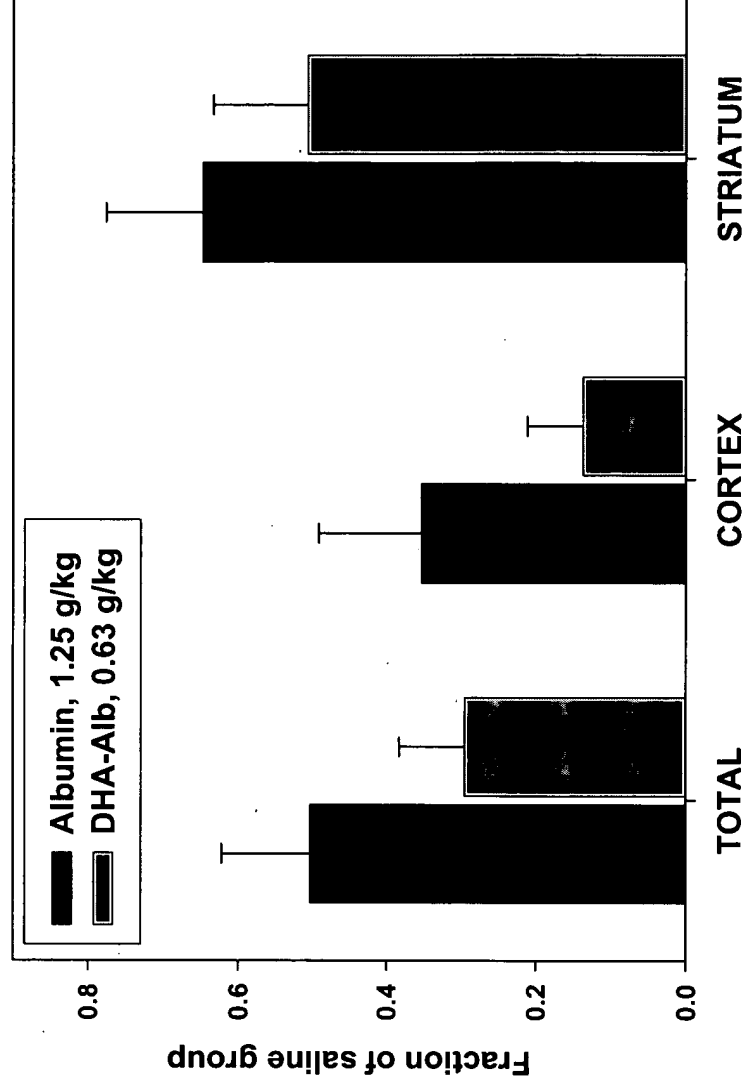

FIG. 5. Legend: No significant differences between the two groups (Student t-tests).
